

# THE PLAYGROUND

In 2023 more than

**30% of the  
world's  
electricity is  
now generated  
from renewable  
sources**

Let's push to make  
this even higher!

# THE PLAYGROUND

A recent study  
claimed that

**Plant-based  
diets can lead  
to 75% less  
climate-heating  
emissions, water  
pollution and  
land-use than  
meat-rich diets**

# THE PLAYGROUND

Did you know?

**A single  
dripping tap  
can waste more  
than 5.5m<sup>3</sup>  
water per year.  
That's the  
equivalent of  
almost 700  
toilet flushes!**

# THE PLAYGROUND

As much as  
**20% of a  
school's carbon  
footprint is due  
to the things it  
purchases. Their  
production and  
transportation  
emit carbon**

So, using less is for  
the best!

# THE PLAYGROUND

As much as

**21% of a  
school's  
carbon  
footprint is  
due to student  
commuting**

So, walk or wheel to  
help our planet!

# THE PLAYGROUND

Over

**90% of  
schools burn  
natural gas to  
heat their  
buildings**

Other methods, like biomass boilers or air source heat pumps, are significantly more eco-friendly.
